## SUMMARY

**XR systems engineer with experience building immersive, multi-user VR applications and real-time interaction tools across Unity, Meta, and Dreamscape platforms.** Led development of AI-driven pipelines, networked systems, and artist-friendly tools used in research, education, and cinematic VR experiences.

## EDUCATION | Arizona State University

**M.S. Computer Engineering**, 2021 (GPA: 3.8) • **B.S. Software Engineering**, 2018 (GPA: 3.9)

## TECHNICAL SKILLS

**Programming Languages:** C, C++, C#, Python, Javascript

**Tools & Frameworks:** Unity (XR, Timeline, MLAPI, ARKit, ARFoundation), OpenXR, Meta SDKs, WebRTC, OpenCV, Open3D, PyTorch, NumPy, Perforce (P4V), Xcode, Adobe Creative Suite

**Systems & Infrastructure:** 3D Computer Vision, AI-powered assistants (ChatGPT APIs), RPC/mmap, TPL, REST APIs, Client–Server Architecture, Cloud (AWS, Azure), NAS-based database systems, CI/CD, Multiplayer Networking, Unity Editor Tooling

## SELECTED WORK EXPERIENCE

### Dreamscape Learn/EdPlus – VR Engineer | 12/2024 – PRESENT

- **Built and deployed two EDU VR courses**, supporting **1,000+ weekly active student sessions**.
- **Led system design and DevOps** for the VR platform, enabling rapid deployment of VR builds across proprietary and third-party systems (OpenXR, Meta, Dreamscape SDK); saved **\$100K+** through infrastructure optimization and reduced setup time from hours to minutes.
- **Built immersive classroom prototype** using Meta headsets and computer vision tech for cross-platform shared spaces; demonstrated potential for **\$200K+ cost savings** by extending Dreamscape’s platform to broader XR ecosystems.
- **Built a full-stack asset management system** with NAS integration, metadata tagging, and Unity tooling; mentored 5+ student developers and boosted team velocity through editor tools, workshops, and an AI-powered documentation assistant.

### ASU School of Electrical and Computing Engineering – Research Assistant/PhD Student | 08/2018 – 06/2023

- **Led research and system development** for three major XR projects: an open-source olfactory integration platform (NSF-funded, peer-reviewed), a NASA-partnered planetary data visualization tool for spectroscopy analysis, and a volumetric streaming system used by 2+ research teams and presented at ACM MobiSys.
- **Developed 6+ XR applications** (mobile, AR, multiplayer VR) used in courses and demos, including ASU Dreamscape Learn and Fall Commencement; **reached hundreds of users**.
- **Mentored 10+ students** and led cross-functional development across Unity, iOS, Android, AWS, and CV/AI pipelines.

### Harbinger Alpha | Dreamscape Immersive – Software Engineering Contractor | 01/2020 – PRESENT

- **Developed cinematic animation sequences** for a horror VR experience using Unity’s animation and scripting systems, contributing to immersive narrative delivery.
- **Prototyped a runtime VR debugging tool** enabling in-headset inspection of code properties and dynamic method invocation; gathered developer feedback to guide design iterations.
- **Co-developed SuperDock**, a ChatGPT-integrated industrial training platform with REST APIs, backend services, and CV-based positioning; deployed by Mesa city government and Arizona-based clients for equipment handling workflows.
- **Contributed to an iOS medical assistant app**, adding emoji UI, multi-language support, and character-guided XR experiences; supported QA and feature development for **100+ clients in assisted care**.

### NASA – XR Software Engineering Intern | 05/2019 – 08/2019

- **Designed and built a VR training authoring tool** enabling model import, tagging, and step sequencing—used to create two ISS maintenance simulations and streamline future training content creation. Presented work to MSFC board of directors as a means of reducing costs for designing and testing ISS system components.
- **Created a pipeline** to import complex CAD models from NASA’s servers into the VR engine for seamless integration into training simulations.

## SELECTED ACHIEVEMENTS

- **Meta Mixed Reality Hackathon Winner**, 2024
- **ASU Presidents Innovation Award**, 2024
- **Co-inventor on 2 U.S. patents** in mixed reality systems for fluid simulation and illumination estimation
- **5+ peer-reviewed publications and demos** on XR systems, multisensory interaction, and volumetric streaming (ACM MobiSys, IEEE VR, ACM HotEdgeVideo) — full list on [Google Scholar](https://scholar.google.com/citations?user=alirezabahremmand)

# CURRICULUM VITAE – ALIREZA BAHREMAND

---

## PERSONAL INFORMATION

Alireza Bahremand  
abahrema@asu.edu  
alirezabahremand.com

## EDUCATION

**Ph.D. Computer Engineering** *Arizona State University*  
Advised by Dr. Robert LiKamWa, **Leave of Absence**

**M.S. Computer Engineering** *Arizona State University*  
Graduated Spring 2021

**B.S. Software Engineering** *Arizona State University*  
Graduated May 2018

## PROFESSIONAL EXPERIENCE

### 2017-2023 | Research Assistant

#### ASU Meteor Studio

Researching and engineering novel software-hardware frameworks for multi-sensory digital embodiment.

- Lead researcher for an adaptive volumetric streaming system, responsibilities included characterizing AI models pipelined into a multi-process and multi-threaded system design. This work exposed me to state-of-the-art networking technologies and codecs. Mentored 5+ students, developed API documentation for 2+ research teams to use our system, and consulted with corporate partners for new advancements to our system (AWS, Verizon).
- Led research project and team to build unified olfactory hardware-software frameworks allowing for dynamic control of an olfactory display. Engineered a developer interface to create olfactory spaces for VR/AR environments, conducted system (signal processing) and user studies (perceptual studies), and then open-sourced the system.
- Led development for 6+ projects/applications, including the ASU 2020 Fall Commencement, ASU Dreamscape Learn experiences, ASU Virtual Campus exploration, and planetary data visualization tools.

### 2022-Current | Independent Contractor

#### Dreamscape Immersive

- Working with teams of professors and students to develop multi-sensory educational VR experiences for introductory Biology courses which will be deployed for use by 1000+ ASU students.
- Helped develop experimental cinematic VR experiences and a hand- and body-tracking multi-user interactive movie poster system, requiring collaboration with art team, sound design team, narrative team, and programming team.
- Proposed and developed a runtime debugging tool to dramatically reduce downtime, allowing developers to inspect the code for virtual objects, invoke methods dynamically, and view/edit variables in real-time.

## **2019-2022 | Software Engineer**

### **ASU Meteor Studio, ASU Learning Futures Collaboratory**

- Led a team of undergraduates to build an iOS/Android AR application that will be used by ASU Introductory Biology courses in the semesters 2022+.
- Helped develop ASU Fall 2021 Commencement mobile AR application, presented to 500+ students. The application included interactive AR objects in the user's environment and volumetric captures of all commencement speakers.

## **2020-2021 | Independent Contractor and Consultant**

### **British Standards Institute, Baltu Studios**

- Developed a tool for building VR training applications and a pipeline to dynamically adjust resolution of dense point cloud scans and render in VR. Presented these tools to 3 different corporate teams.
- Helped interview and evaluate 10+ international VR/AR telecommunications tools and training applications.
- Lead developer for iPad application, constructing REST API and integrating backend with frontend application.

## **2019 | XR Software Engineer Intern**

### **NASA**

- Developed a pipeline and system to import complex CAD models into VR training applications. Consulted and tested with 5+ teams (e.g., Design, Requirements, Mechanical Engineering, System Engineers). Presented work to MSFC board of directors as a means of reducing costs for designing and testing ISS system components.
- Led team of 4 to build a VR training system creator, then utilized that software to create two VR training experiences for astronauts that board the ISS on how to perform maintenance procedures for specific ISS modules.
- Contributed to development of a Mars Habitat simulation at the NASA 50th Apollo 11 celebration in Washington D.C. Presented experience to 300+ people (e.g., families, various NASA agents).

## **2016-2018 | Undergraduate Teaching Assistant | Computer Support**

### **ASU**

- Wrote in-class assignments for SER334: Operating Systems & Networks and SER250: Microarchitecture & Computer Architecture.
- Provided technical support to 100+ ASU students and faculty for hardware and software issues.

## **PATENTS**

Method and Apparatus for Simulated Hydrodynamics in Mixed-Reality Fluid Vessels - Robert LiKamWa, Shahabedin Sagheb, Alireza Bahremand, Byron Lahey, Frank W. Liu, Assegid Kidane, 2022, US 11,462,128.

Illumination estimation for captured video data in mixed-reality applications - Siddhant Prakash, Paul Nathan, Linda Nguyen, Robert LiKamWa, Alireza Bahremand, 2021, US 11,043,025.

## PUBLICATIONS

*"Design and evaluation techniques for odor mixing"*

Jessica Lai, Mason Manetta, **Alireza Bahremand**, Christy Spackman, Richard C Gerkin, Brian H Smith, Robert LiKamWa

In Proc. ACM CHI Smell, Taste, Touch, Temperature 2023

*"Demo: Adaptive 5G systems for interactive volumetric sports analysis in augmented reality"*

Jiqing Wen, **Alireza Bahremand**, Aashiq Shaikh, Lauren Gold, Charmaine Farber, Robert LiKamWa

In Proc. ACM MobiSys 2022

*"The Smell Engine A system for artificial odor synthesis in virtual environments"*

**Alireza Bahremand**, Mason Manetta, Jessica Lai, Christy Spackman, Byron Lahey, Brian H Smith, Richard C Gerkin, Robert LiKamWa

In Proc. IEEE VR 2022

*"Characterizing real-time dense point cloud capture and streaming on mobile devices"*

Jinhan Hu, Aashiq Shaikh, **Alireza Bahremand**, Robert LiKamWa

In Proc. ACM Hot Topics in Video Analytics and Intelligent Edges 2021

*"Virtually composing and dynamically mixing complex odors"*

**Alireza Bahremand**, Christy Spackman, Richard C Gerkin, Brian H Smith, Robert LiKamWa

In Proc. ACM CHI Smell, Taste, Touch, Temperature 2021

*"Visualizing Planetary Spectroscopy through Immersive On-site Rendering"*

Lauren Gold, **Alireza Bahremand**, Connor Richards, Kyle Sese, Kathryn Powell, Scott Dickenshied, Christopher Scott Edwards, Robert LiKamWa

In Proc. IEEE VR 2021

*"Virtual & Augmented Reality Tools for Planetary Scientific Analysis Public Engagement"*

**Alireza Bahremand**, Lauren Gold, Connor Richards, Kyle Sese, Kathryn Powell, Scott Dickenshied, Christopher Scott Edwards, Robert LiKamWa

In Proc. LPSC 2020

*"Coordinate: A Spreadsheet-Programmable Augmented Reality Framework for Immersive Map-Based Visualizations"*

Aashiq Shaikh, Linda Nguyen, **Alireza Bahremand**, Hannah Bartolomea, Frank Liu, Van Nguyen, Derrick Anderson, Robert LiKamWa

Proc. ACM AIVR 2019

*"HoloLucination: A Framework for Live Augmented Reality Presentations Across Mobile Devices,"*

**Alireza Bahremand**, Linda Nguyen, Tanya Harrison, Robert LiKamWa

Demo ACM AIVR 2019

*"SWISH: A shifting-weight interface of simulated hydrodynamics for haptic perception of virtual fluid vessels"*

Shahabegin Sagheb, Frank Liu, **Alireza Bahremand**, Assegid Kidane, Robert LiKamWa

In Proc. ACM UIST 2019

*"GLEAM: Global Light Estimation Across Mixed Reality Devices"*

Siddhant Prakash, **Alireza Bahremand**, Linda Nguyen, Robert LiKamWa

In Proc. ACM MobiSys 2019

*"An Integrated Environment for Visualizing In-Situ and Orbital Planetary Data"*  
Kathryn Powell, **Alireza Bahremand**, Alec Gonzalez, Robert LiKamWa, Chris Edwards  
In Proc. LPSC 2019.

| EXTRACURRICULARS | <p><b>2022   Teacher</b></p> <p><i>Digital Culture Summer Institute at ASU</i></p> <p>Designed a project assignment and Unity template for building multiplayer games. Adapted to work on laptops, mobile devices, and VR. Had 20+ students (middle school and high school) develop custom multiplayer experiences and present them at showcase.</p> <p><b>2017-2021   Mentor, Judge, and Organizer</b></p> <p><i>SunHacks Hackathon at ASU</i></p> <p>Designed a hybrid (online and in-person) workshop and Unity template for building multiplayer games and cross-platform AR experiences. Presented at 3 ASU hackathons to over 150+ students total. Additionally helped organize and market the largest ASU Hackathon.</p> <p><b>2019   Vice President</b></p> <p><i>TEDxASU</i></p> <p>Helped organized one of the largest student-led events at ASU Gammage Theater, resulting in 54000 in revenue and 1500+ attendees. Contributed to interview/recruitment of 30+ students across multiple academic disciplines for roles such as marketing, research and development, stage design, and graphic design. Assisted with speaker coaching sessions, routinely meeting with 8+ speakers. Led development of website, digital services, and custom AR-application for event.</p> <p><b>2015-2018   President</b></p> <p><i>Computer Science Club at ASU</i></p> <p>Helped found and expand Computer Science Club at ASU, resulting in 100+ students (online and in-person) across two campus and various engineering majors (e.g., Aerospace, Mechanical, Electrical, Software). Coordinated bi-weekly workshops, guest lectures, and social events for engineering students for 6 semesters.</p> |

## TALKS

**2022 - Building Multiplayer Experiences** *ASU DC Summer Institute*  
**2022 - Game Development & Research** *Mesa Public Schools*  
**2021 - The Smell Engine** *ACM CHI Smell, Taste, Touch Workshop*  
**2018-20 - XR Software Development,** *ASU Hackathons*  
**2019 - XR Software Development,** *NASA*  
**2018 - The Art Within AR/VR,** *TEDxASU*

## SCHOLARSHIPS AND AWARDS

**2023 - ECEE Student Travel Award,** *ASU*  
**2022 - Best Demo Award,** *ACM MobiSys*  
**2021 - Best Hack Nomination,** *XR Brain Jam*  
**2020 - Top 5 Nomination,** *MIT Reality Hacks*  
**2019 - University Graduate Fellowship,** *ASU*  
**2019 - University Engineering Fellowship,** *ASU*  
**2019 - Best Demo Runner Up,** *ACM MobiSys*  
**2019 - Student Travel Award,** *ACM MobiSys*  
**2018 - Convocational Speaker Faculty Nomination,** *ASU*  
**2018 - Outstanding Software Engineer Faculty Nomination,** *ASU*  
**2018 - Blowers Engineering Scholarship,** *ASU*  
**2017 - First Place** *PayPal Opportunity Hacks Hackathon*  
**2017 - First Place** *AZ Desert Hacks Hackathon*  
**2016 - Best Embedded Hack Nomination** *PennApps Hackathon*  
**2010 - Second Degree Black Belt** *American Karate Association*
